

## War Surgery 1914-18 (Paperback)

By Steven Heys, Thomas Scotland

Helion Company, United Kingdom, 2014. Paperback. Book Condition: New. 234 x 156 mm. Language: English . Brand New Book. The Great War, 1914-1918 resulted in enormous numbers of casualties who had sustained filthy contaminated wounds from high explosive shellfire, bomb and mortar blast, and from rifle and machine gun bullet. Such wounds were frequently multiple, severe, and almost invariably became infected. Surgical experience from previous conflicts was of little value, and it became quickly apparent that early surgical intervention with radical removal of all dead and devitalised tissue was absolutely vital to help reduce the chances of infections, especially the lethal gas gangrene, from developing. War Surgery 1914-1918 explains how medical services responded to deal with the casualties. It discusses the evacuation pathway, and explains how facilities, particularly casualty clearing stations, evolved to cope with major, multiple wounds to help reduce their mortality. There are chapters dealing with the advances made in anaesthesia, resuscitation and blood transfusion, the pathology and microbiology of wounding, and diagnostic radiology. There are also chapters dealing with the development of orthopaedic surgery, both on the Western Front and in the United Kingdom, the treatment of abdominal wounds, chest wounds, wounds of the skull and brain,...
