

Edexcel Mastering Chemistry (AS/A2) Single User Access Code

MasteringCHEMISTRY Personal Student Registration Record

Student Name: _____

School/Post Code: _____

Course ID (if applicable): _____

Student ID (optional): _____

To begin using MasteringChemistry, follow the basic instructions below to register and log in. For the latest instructions, consult www.masteringchemistry.com/support for the online help. You can log in to your teacher's MasteringChemistry course (if available) until it expires, or log in for self-study activities (if available for your textbook) for one year.

Register for MasteringChemistry (one time only)

1. Go to www.masteringchemistry.com and click **New Students** beneath Register.

2. When asked to supply your access code, enter the **student access code** provided below. (Don't type the dashes.) Each student access code can be redeemed only once, for a single student registration.

1234567890

NOT FOR RESALE (For students, you cannot transfer your subscription to MasteringChemistry to another student by entering the name of your school account or in any other way. By using the access code provided above to register, you indicate that you have read, understood, and agreed to Pearson Education's License Agreement, which also applies to MasteringChemistry's registration process.)

3. Follow the on-screen instructions to enter some basic information, including a valid email address and your school post code. When asked to provide your school name, choose **Other** from the list of schools if you don't see your high school listed.

You will use the login name and password you create in this process to log in to MasteringChemistry. Record your login name and password here. (Do not share your login name and password with any other student.)

Login Name: _____

Password: _____

4. When you complete the registration process, click **Log In Now** to go to www.masteringchemistry.com.

Log in to MasteringChemistry

1. From www.masteringchemistry.com, enter your **Login Name** and **Password**, and click **Log In**.
2. Your next step varies, depending on whether or not you have been given a Course ID.

<p>If you received a Course ID from your teacher, use it for a test in a MasteringChemistry course now.</p> <p>From the Course ID list below, choose the Test (or Practice with review) the student will take if your teacher hasn't given you instructions for this test.</p> <p>Start Assignment List to view and complete assignments. View Course (if available) to view your textbook's Study Area to view these.</p>	<p>If you don't have a Course ID, go to the self-study area in MasteringChemistry. (Not available for all textbooks.)</p> <p>Identify yourself. Select Educational Institution, Course, Study Area (and then Study Area in the list).</p> <p>If you receive a Course ID after you complete the step above, Join Course (not required).</p>
---	---

Important: Check that your computer can run MasteringChemistry:

[Go to \[www.masteringchemistry.com/support\]\(http://www.masteringchemistry.com/support\) and click **System Requirements**.](http://www.masteringchemistry.com/support) In particular, make sure that you have the latest version of the **Adobe Flash** player installed.

- **For more information or technical support:** Click **Help** after logging in to MasteringChemistry. For technical issues, go to www.masteringchemistry.com/support.

Pearson Education Limited, United Kingdom, 2008. Online resource. Book Condition: New. 297 x 210 mm. Language: N/A. Brand New Book. Mastering Physics and Mastering Chemistry are the most advanced, educationally effective, and widely used homework and tutorial systems in the world. Built upon proven technology, the service has provided over 150,000,000 student submissions graded with feedback. Developed by scientists to help improve standards in Physics and Chemistry and now mapped to Edexcel's revised specifications for Physics and Chemistry GCEs. Mastering Physics and Mastering Chemistry are unique tutorial subscription services that offer students practice and remediation of each AS and A2 topic. They provide questions designed to hone exam technique through questions supported by personalised hints that coach students to reaching the correct answer. Provides practice in all areas of the specification * With tutorials for every AS and A2 topic that provides a rich palette of learning activities, including chemical diagrams and free text response questions, ranking exercises and graphing problems. Coaches students to exam success * Steers students through the stages of a problem, with difficult exercises broken down into manageable chunks. * Motivates students by coaching them to success in every exercise, with bonus points awarded to students who get it right first time. Ensures students get the most from homework and non-contact time * Available online for any time, any place learning, making it particularly suitable for non-contact time and homework.
