All good math students need to know how to handle data, whether its measuring it or interpreting it. By presenting the principles of measurement in the context of familiar situations, students will learn how to tell and write time, and also how to measure lengths. Students will walk away with the tools needed to organize, represent, and interpret data. Engaging text and visuals help to reinforce the principles of measurement and data. A field day is a fun opportunity to practice organizing and categorizing data, especially when it s about fun field day activities. Readers will learn how to do just that in this volume, which satisfies CCSS Math Standard 1.MD.C.4.
